# MUZBAH UDDIN

**React Front-End Developer**

**Github** | **LinkedIn** | **Portfolio**
**Email:** rimonmr444@gmail.com
**Phone: +880 1610975217**
**Feni, Bangladesh**

## CAREER OBJECTIVE

As a React frontend developer passionate about creating and eye-catching user interfaces. Looking for an opportunity to apply my knowledge in a professional environment, contribute to the development of responsive web applications and work with experienced developers to expand my skills.

## SKILLS

**Expertise:** React.js | HTML5 | CSS3 | Tailwind CSS | Bootstrap

**Comfortable:** JavaScript | Node.js | Express.js | MongoDB

**Familiar:** TanStack Query | JWT (JSON Web Token) | WordPress

**Tools:** VS Code | Github | Firebase | NPM | Netlify | Vercel | Figma

## PROJECTS

### 1. Asset Management:          Live Site | Client Site Code | Server Site Code

**Type:** Asset management is the full-stack web application.

**Features:**

- Admin can control the entire website resources. There will be some specific packages for admin. He/She can buy those packages and add members to his team.
- Admin can add different types of products and if someone sends a request for the product, they can accept or reject it.
- Employees can buy the products.

**Technologies:** React, Tailwind, Firebase, Node, Express, MongoDB

### 2. Our Blog:          Live Site | Client Site Code | Server Site Code

**Type:** This is Blog post site. Full Stack Website

**Features:**

- Bloggers can add their blogs on this website. And they can also update their blog.
- You can comment on other people's blogs. But you can't comment on your own blog.
- Blogs can be found by searching and filtering.

**Technologies:** React, Tailwind, Firebase, Node, Express, MongoDB

### 3. Automotive Car:          Live Site | Client Site Code | Server Site Code

**Type:** This website is designed to assist users in their car buying or research process.

**Features:**

- Login and register email and password authentication systems exist.
- If you click on the logo of a brand, then the cars of that brand will be shown.
- Cars can be added to the My Cart page.

**Technologies:** React, Tailwind, Firebase, Node, Express, MongoDB
